(563) 324-2992

_____ Moline Diagnostic Center
1st Floor, CVM Heart Center
350 John Deere Road
Moline IL 61265
(309) 743-6700

An arterial duplex study is an ultrasound procedure. Images of the leg blood vessels are obtained. Images and recordings are made of the blood flow through these vessels that can help to identify abnormalities in the leg arteries.

Please wear comfortable two piece clothing. You will be asked to remove your pants, socks, and shoes. The technician will perform the test while you lay on your back. The test will take approximately 60 minutes.
