(309) 743-6700

---

A renal duplex study is an ultrasound procedure. Images of the abdominal blood vessels are obtained. Images and recordings are made of the blood flow through these vessels that can help to identify abnormalities in the abdominal arteries.

Please do not eat or drink for 12 hours prior to this test. The test can usually be scheduled in the morning to assist with the fasting requirement. Please wear comfortable two piece clothing. The test will take approximately 60 minutes.

**If you need to reschedule your test please call 24 hours in advance.**
